Pictures Turned Out Good

The Board of Trade committee have just reported securing a message to the effect that the pictures taken during the Imperial Press visit here turned out to be excellent and a rare treat is in store for all next Monday night, when these, along with pictures of the School Fair, farm and town scenes, will be shown in the Gleichen Opera, followed by a leap year dance. All in aid of the Ladies Rest Room.

All Board of Trade functions start on time and the pictures will be shown exactly at 8 o'clock. Extra seating accommodation is being provided for. All present at the last Board of Trade dance remember it was the most orderly and altogether the most successful held in Gleichen for a long time. The committee in charge wish it clearly understood that they regard every lady present their personal guest, and will look after them just the same as they would in their own home.

Memorial Day Starts

The program committee charged with arrangements for November 9th is hard at work. The ladies of the town district, under the leadership of the Women's Institute have generously accepted the responsibility of providing upper for the banquet.

The committee agree that, in justice to the ladies who at best will have a heavy task, certain principles should be laid down as governing the banquet:

1. Tickets will be sold only to those who have contributed to the Memorial Fund, it being understood that, if John Smith has a wife his contribution will mean Mr. and Mrs. John Smith. The committee is confident, however, that single ladies, and, indeed, all ladies, will desire to have a direct share in the Memorial Fund.

2. That during the Financial Drive canvassers be asked to place tickets and to urge co-operation on the part of those who expect to attend the banquet to purchase their tickets now.

3. That canvassers secure the names and addresses of all returned men in the memorial district in order that invitations may go direct to them. That the names and addresses of next-of-kin of the men whose names appear on the shield be also secured by the canvassers.

The Referendum Vote

A Closing Message from Referendum Campaign Committee to the People of Alberta

During the past six months we have done our best to discharge the duty entrusted to us.

At the present moment there are 40 organizers and speakers busily at work throughout the Province. Over 450 Campaign Committees have been organized. Public meetings have been held in every section of Alberta, hundreds of thousands of pamphlets and cards have been distributed, posters and press advertising have been used to the limit of our funds, and everywhere men, personal canvasses from person to person and house to house has been done. Every effort has been put forth to inform and arouse the public as to the issue.

We are out this time to overthrow and annihilate the Liquor Traffic in Alberta.

Our Objectives are:

1. A dry majority in every Provincial Constituency;
2. A dry majority of 50,000 for the whole Province;
3. The largest vote ever polled at an election in Alberta;
4. The highest percentage vote for Prohibition of any Province polling on October 25th;
5. No Campaign Deficit.

The Supreme duty now is—Vote and Get Out the Vote.

There must be no Light Vote on October 25th.

We rest our case confidently in the hands of the intelligent and progressive citizens of Alberta.

The Free Use Resolution is a unanimous verdict. It is now up to the Electors of Alberta on October 25th to Pronounce Verdict.

Other important Resolutions—Social, economic, political and educational are deserving of consideration. Settle the Liquor Traffic Now, and set free moral energy for other reforms.

And send a Clear Across the Sea to the Motherland and to the Sisterlands of New Zealand, Australia and South Africa, where the temperance forces are fighting a terrific battle against the entrenched power of booze.

Their eyes are upon us. Give them a strong lead and at Annapolis, CARRY ON!

School of Agriculture

In previous issues of the "Call" consideration has been given to the Alberta Agricultural School system as a whole and to the work done by those taking the course in agriculture. It is the purpose of this, or day, briefly first with the work of the Home Economics course and later with the students own organization. The course of study in Home Economics is as follows:

Cooking and food
Clothing
Sewing and mending
Textiles
Household administration and sanitation
Horse raising, physiology and anatomy
Dairying
Poultry
Bacteriology
Physical culture
English and mathematics
Household chemistry

Cooking and Food—Three lectures and three laboratory periods. Each week is devoted to cooking, the study of foods and table service. The planning, preparation and serving of breakfast, lunch and supper are discussed, together with a systematic study of each foodstuff as cereals, milk, vegetables, fruit, eggs and meat. The student is to be able to prepare and serve meals. Under the heading of dietetics food values are determined, normal diets and those suitable for invalids are studied also. The student is to be able to select, select, economic buying and home sources of food, canned and dried food, fruits, vegetables and meats.

Clothing—Three lectures and three laboratory periods. Each week is devoted to sewing, cutting and fitting. The student is to be able to make and mend garments. The student is to be able to select, select, economic buying and home sources of food, canned and dried food, fruits, vegetables and meats.

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the cultivation of alfalfa, the king of fodders, which assures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway irrigation block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices averaging \$50 an acre, with twenty years to pay and the privilege of a loan of \$2,000 for improvements; 6 per cent. interest; no principal after the first payment until the end of the fourth year; reduced interest if settlement conditions complied with, and no water rental for the first year. Contracts can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

Advises Farmers to Hold Their Wheat

BY JOHN GLANBACH

The Wheat Board, although far from being perfect, was the greatest step towards the grain growing farmer has ever come to get a square deal. It enabled the small and the debt farmer to market his wheat in the fall, pay his debt and still get the same price as the big farmer who could hold his wheat until next spring or summer.

But the Wheat Board is a thing of the past and the farmer has again been handed over to the tender mercies of the speculator, and the same old game we were so well acquainted with before the war is again being enacted. That is, all farmers who have had little or no crop for the past two years and who are heavily in debt are now rushing in their wheat and the price has dropped a dollar a bushel since the wheat started. It is a great and glorious situation for the wheat speculator, and when the news went around that the Wheat Board had gone out of business a shout of joy went up from every speculator between New York and Vancouver. Millions of bushels of wheat, millions of dollars to be made, and by the farmers but by those who never raised a bushel of wheat in their life. Yet it was grand, and now they are rushing in the wheat, saying up the wheat as low as possible. Later on, when the wheat has left the farmers' hands, the price will soar to the high level, \$2 or more. It there ever was a time when the wheat was a fair price for the farmer that time is right now. The present price has been put in and harvested at enormous cost to the farmer. It is the most expensive crop ever grown, and is raised in Canada or anywhere else. To begin with, few farmers raised any grain to speak of during the past two years, and most all the capital needed to get in this crop has been borrowed from the banks at high interest. Many farmers in the western part of the country at high prices they bought feed oats at between \$1.20 and \$1.50 per bushel, and hay at from \$22 to \$25 a ton, or they bought cattle at extravagant prices. Farmers have had to pay a price never heard of before. Machinery, hardware, harness, lumber, groceries, and in fact every article the farmer had to have in order to put in and harvest that crop have gone sky high. The farmer paid \$5 to \$7 per day to get his grain stored, from 20c to 25c a bushel to get his wheat threshed, and he is now paying the railroads \$5, per cent more freight on every bushel of wheat than he paid for it.

What we do not hear of is the price offered less than \$2 for his wheat, and it does not take much figuring to find out that the farmer who has escaped he brought and saved a little grain from the onslaught of exorbitant prices, soil, however, etc., cannot sell wheat for \$2 or for a bushel and make it pay. From all information on hand it is clearly shown that there is no great wonder what crop this year. The United States has several million bushels less than last year, and there is every reason to believe that the price of wheat will be between \$2.50 and \$3.00 next spring and perhaps more. Why then dump it on the market now and hand it over to the speculator?

But to hold back wheat in one district while it is being rushed in at other points would do little good. There must be concerted action. Farmers, do you see the necessity of having a strong organization? Do you think that the time has come when the whole farming class must stand together economically and politically in order that they may obtain a fair reasonable price for their products. It does not mean that we should form a combination like the big trust are doing, to hold up the public; but it cannot be unreasonable that if we are to go on farming we must have a little something to say in setting the price on the products we grow. All the hot-air talk about farming being the basic industry and the farmer the backbone of the country is just so much rail, meaningless phrases uttered by those who claim their living by abusing the farmer. As a matter of fact, at present the farmer is the under dog and everybody is sitting on his back. The farmer pays exorbitant prices and takes whatever he can for his own products. Of course the present class of farmers can quit. Nobody can compel them to farm unless they want to. But that would make no difference; farming must go on; somebody will have to farm; the world must have bread, must be fed, and while society may exist if some

Local and District News

The Financial Drive for the Memorial Fund begins today and ends when an every man canvass throughout the whole district has been completed.

Some may imagine Const. T. W. Byrnes has little to do, nevertheless, he is kept busy between rumors, false and otherwise. For instance in two days recently he had one man fined \$10 for being drunk, one \$50 for procuring liquor and a third \$150 for bootlegging. The last arrest was clearly made on suspicion. One constable is popular for the reason that he uses none of the low stool-pigeon tricks and does not condemn a man before he has a fair trial.

One of Standard's prominent residents died on Saturday night, September 24th, aged 66 years, in the person of Mr. J. J. Vandergrift, after a long illness caused by Bright's disease. The funeral services were held in Tuesday at his residence, after which the remains were laid to rest in the Standard cemetery.

John Jones Vandergrift was born in Clay County, Ill., on December 21st, 1853, and was the only child of Jacob and Laura Vandergrift. Deceased was married to Miss Eliza Baker, September 21st, 1884, and to their union was born five children, two of which preceded him to the other world in infancy. The living are Mrs. E. L. McLean, of Rogers, N.D. and E. C. Vandergrift and Mrs. Conny of this place. They moved from Illinois to Standard in April, 1914, where they have since resided.

The widow and family wish to thank their friends and neighbors for their many kindnesses during the illness and death of the beloved husband and father and also for the many beautiful flowers presented by his friends.
